

2021 Seedling Sale

Preorder From

About Our Seedlings

The varieties we sell are the same ones that we have used and tested in our field and greenhouses! We use organic seeds from Johnny's, Fedco and High Mowing and plant them in a mixture of Alaska Earth potting soil and Fishy Pete's compost – both local and natural.

Pricing & Selection

Varieties are offered in 4-packs and 6-packs, each pack for \$5. Each pack is roughly 5 inches x 5 inches, divided into either 4 or 6 cells. The type of crop will determine whether it comes in a 4-pack or 6-pack, as some need more room to grow and are higher producing plants. Choose how many of each pack you would like on the order form below, which also contains information about growing practices for your convenience.

ALL ORDERS DUE APRIL 9th

Preorder forms can be emailed to springcreekfarm@alaskapacific.edu

PICK-UP Wed., May 26th

Payment due at pick-up

LOCATION: APU Farmers Market,
Outside Carr Gottstein Hall
