Risk Management Plan: Independent Student Projects

Project Title:	
Student Name:	
Academic Department:	
Advisor:	
Other individuals participating:	

Project description:

List your travel plans by day and activity in the area that you will be traveling.

Course Travel Itinerary	
Date	Description

Do you have health insurance for the duration of your project?

What safety equipment will you be carrying?

Certifications:

	Name	Applicable certifications
Student:		
Student assistant(s):		
Other assistants:		

Hazard/ Risk Assessment and Mitigation:
List potential hazards you may encounter during project. For example, these may include: weather, group dynamic challenges, lost equipment, hazardous terrain, transportation, etc.

Hazard	Evaluation of Risk	Control Measures
Cold Injuries	Low if proper precautions are taken	Cold injuries including, frostbite, frostnip, and hypothermia are all possible in the winter mountain environment due to the remoteness, altitude, exposure, and weather. Paying close attention to personal comfort is key for prevention. I will encourage those who will participate in the project, to keep hydrated, eat an appropriate diet, and pack/layer properly while in the backcountry.

Communication Plan:
Describe how <u>often</u> you will be communicating and for what reasons:
List the <u>devices</u> will you use to communicate by brand, ownership and number:
Where applicable: Enter the contact numbers for: Emergency Services (e.g., State Troopers) hospitals or clinics (number and location) air taxis or water taxis (number, location, transport kind) land managing agency (number, location, permit number) other (describe)
In-Town Coordinator and/or local contacts: Who will call to "check in"? (name, number, location) Who will you call "for help"? (name, number, location) Who will you call "for emergency"? (name, number, location)

Have you read any applicable APU policies, such as APU driving policy?
